

Housing Statement

The East-West Center residence halls accommodate primarily international graduate students. On a space available basis, housing is available to University of Hawaii graduate students with priority given to those students: 1) majoring in Asia Pacific studies, 2) with research or major projects focusing in the Asia/Pacific region, and 3) with professional commitment to the Asia/Pacific region. (We do accept a limited number of undergraduates whose academic work/professional goals are consistent with these priorities.)

Please provide below a statement which includes the following: Why are you applying for housing at the East-West Center? How will living in our residence halls contribute to your academic program or long-range professional plans? How can you make a contribution to the East-West Center residential community?
