"A New EWC Foundation: Getting to Know Each Other"

With the East-West Center’s emphasis on building Ohana and Laulima, tonight’s session will incorporate newly formed Wednesday Evening Seminar discussion groups and give participants the opportunity to meet other members of the EWC community. Although a speaker will not be present, this seminar will encourage students to engage each other through various ice breakers and activities with the goal of teambuilding. How well do you truly know the people you see in Hale Manoa and Hale Kuahine? Tonight will be a chance to find out.

(You can help reduce climate change by bringing your own cup. Mahalo!)

The community is welcome to attend!
