“Getting to Know Each Other: Building the EWC Community”

With the East-West Center’s emphasis on building Ohana and Laulima, tonight’s session will give participants the opportunity to meet the other members of the EWC community. While there will be no speaker this evening, this particular seminar can be viewed as a night of teambuilding and fun. To accomplish this task, fellows will be assigned their semester long discussion groups and will engage each other through various activities and ice breakers. How well do you really know the people you see in the kitchen, bathroom, or hallway of Hale Manoa and Hale Kuahine? Tonight will be a chance to find out.

(You can help reduce climate change by bringing your own cup. Mahalo!)

The community is welcome to attend this lecture
